

PRINCETON RESCUE SQUAD EDUCATION DEPARTMENT

701 Stafford Drive Princeton, WV 24740

POLICY: OSHA compliance

Effective Date: June 2020

TITLE: Training compliance for laboratory safety

RATIONALE: To ensure that students are trained in laboratory safety rules and the use of equipment.

POLICY:

Students enrolled in any course or program that requires a laboratory session involving equipment that may result in pathogen exposure such as blood and/or other body fluids are required to attend training prior to the scheduled class.

The training will include such topics as: laboratory safety rules, universal precautions, personal protective equipment, and the proper use of provided safety equipment .

To validate the training, the instructor of the session will submit, at a minimum, a record of student attendance, a signed verification form from each participant for the training received, and provide the details for the training session within the lesson plan for the class session.

Records will be kept on file with the students file for the course in which he/she is enrolled.

RESPONSIBLE PERSONNEL:

Education Director, Instructional faculty, students
